

# IN THE OIL FIELDS

Office: 6241 W. H. PECK Residence: 2442

## OIL MARKET QUOTATIONS.

East and Okla. \$2.25	North Lima	2.48
Wichita	2.92	
Midway (Okla.)	2.30	
Stephens	2.50	
Garber	2.25	
Burdette	2.25	
Somer	2.70	
Calgary (Alta.)	2.25	
England	2.25	
Edmon	2.25	
Elk Basin (Wyo.)	2.25	
Calgary (Alta.)	2.25	
Elk Basin (Wyo.)	2.25	
Calgary (Alta.)	2.25	
Grass Creek	2.25	
Canada	1.50	
North Lima	2.48	
Bull Muddy	1.50	

## North Louisiana Production Shows Big Gain

According to the production figures for the past week the north Louisiana fields show a gain of 1,000 barrels. The attention seems to be divided between Clarendon field and the Bull Bayou, both the Gulf Refining company having completed a nice well in the No. 1 Hook in 5-12-10, which is in the ground at the rate of 300 barrels at 2,700 feet. The nearest heavy precipitation in the well of the Depression oil & gas Co. in 7-12-10 which is in the ground for the same capacity last month. There are no other wells in section 5.

The figures are divided as follows:

Field	Barrels
Caddo light	9,320
Caddo heavy	17,010
Clarendon	6,140
De Soto and Red river	15,910
Total north Louisiana	47,200
Total south Louisiana	12,400

Total Louisiana 59,600

A great deal of interest is centered in the Clarendon field and is attracting oil men from all over the country and looks as though that corner is about to realize its ambition and become an oil producing center. The oil fields of the state already congested and with another big production in that field, things are going to surpass the old Texas fields which have been causing the commotion in the oil world.

This promises to be one of the largest producing fields in the world, but as yet the boundaries of the field have not been determined.

## Texas Production Shows Increase

For the week just passed the production of the various fields in Texas is as follows:

Barrels	
Ranger district	41,600
Stephens	42,900
DeSoto	44,500
Burkburnett district	88,225
Total	241,225
Electra district	10,580
West Columbia	26,835
Globe Creek	17,000
Sour Lake	7,000
Bumble district	7,750
Hall district	2,500
Damon Mound	2,500
Town Park	700
Total	84,285
Grand total, Texas fields	325,520

One of the interesting features of the Texas fields is the grand total of all fields which is 325,520 barrels daily production.

The Ranger district for this week shows a 500-barrel decrease while DeSoto holds its own. Stephens county shows an increase of 2,000 barrels, while Burkburnett shows an increase of 4,000 barrels and seems to have recovered somewhat from the slump of two weeks ago. Several new wells were completed in the Burkburnett district the past week.

Several Nice Wells in Keys District

The Keys district furnishes some mighty nice wells, while not so large as the gushers of Texas, but are extra good wells when one stops to consider the depths of the wells which are producing from the 2,100-foot sand.

O. A. Chapman No. 3 McQueen in the center of the south line of southwest of northeast of 22-16-10, got sand 2,100 to 2,130 feet and is good for 250 barrels.

The Mc-Man Oil company No. 10 Priddy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,200 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.

The Mc-Man Oil company No. 10 Pridy in the southwest of northwest of southwest of southwest of 22-16-10, got sand 2,100 to 2,130 feet and is good for 200 barrels.
